National Health Freedom Action STATE ACTION UPDATE

Occupational Laws Impacting Health Freedom March 30 2013

NHFA is committed to supporting state bills promoting freedom of choice in health care such as:

State Safe Harbor Exemption laws to protect unlicensed natural health care practitioners; Expanded Care Practice Acts for holistic doctors and other holistic licensed professionals; Bills calling for mercury free vaccines; Protection of philosophical exemptions for vaccine mandates; Protection of access to raw unpasteurized foods such as raw milk and farm fresh products; Bills that protect parent rights to choose alternative health care for their children; and Support of states that oppose mandatory participation in federal health plans.

The goal is to empower citizens to make health care decisions with the information they need.

Note: Regarding NHFA's commitment to support **the passage of Safe Harbor Exemption bills for independent health care practitioners that do not hold state occupational licenses and are currently practicing in the public domain:** Historically these practitioners have been unfairly charged with practice of medicine without a license. Safe Harbor exemption laws for these practitioners are needed in order to protect consumer access to the broad range of health care and healing practitioners, such as herbalists, traditional naturopaths, homeopaths, body workers, and culturally specific healing practices, that are not currently regulated by the states and that do not rise to the level of concern requiring state oversight, certification, registration, or licensure. Eight states now protect consumer access to unlicensed health care practitioners, including *Oklahoma, Idaho, Minnesota, Rhode Island, California, Louisiana, New Mexico, and Arizona (limited exemption for homeopaths passed in Arizona).* Twenty additional states have introduced similar legislation within the past eight years. Other states are preparing for the future.

The following is a table of bills having to do with OCCUPATIONAL LICENSURE ISSUES that we have opposed or supported to protect health freedoms. Green indicates that a safe harbor law has passed in some form in that state.

Bill Activity as of March 30, 2013

States	Year	Bill	Action
Arizona	2011	SB 1175 mandating licensure of homeopaths that are not medical doctors	Opposed; Passed

Mission Statement

To promote access to all health care information, services, treatments and products that the people deem beneficial for their own health and survival; to promote legislative reform of the laws impacting the right to access; and to promote the health of the people of this nation.
