

**USHFC-2014-Resolution Re: Call for a Halt to Covert Aerosol Spraying Programs,  
aka Geoengineering**

**Resolution 5**

**Calling for a Halt to Covert Aerosol Spraying Programs, aka  
Geoengineering**

**2014 U.S. Health Freedom Congress**

**Hamline University, St. Paul, Minnesota, September 26 and 27, 2014**

**Submitted by DAMS INC (Dental Amalgam Mercury Solutions)**

WHEREAS covert aerosol spraying programs have been underway in the United States, Canada and elsewhere for at least 15 years, as documented by visible evidence in the skies, high resolution photography, filming of the planes doing the spraying and evidence from the materials that have dropped out of the aerosol sprayed skies and analyzed; and

WHEREAS massive spraying programs have dropped millions of tons of the oxides of aluminum, strontium, and barium, and other such metallic compounds plus various sulfur compounds, plus filamentous life forms that can now be detected in the blood of all Americans; and

WHEREAS weather reporters systematically ignore the obvious impacts of aerosol spraying on the appearance of the skies, the loss of sunlight reaching the ground, and the impact of the spraying on the storm system; and

WHEREAS research by independent scientists suggests that there are valid concerns about adverse effects of the aerosol spraying on respiratory health, neurological impacts, and other health impacts, damage to crops, forests, aquatic life and virtually all aspects of our eco-system; and

WHEREAS our current era is marked by "climate change," frequent extreme weather events, elevated levels of ultraviolet radiation, extreme drought in California that is believed to be geoengineering related, fish and other sea creatures dying off of the west coast of North America in unprecedented numbers, trees dying in what should be pristine and remote areas;

**THEREFORE BE IT THEREFORE RESOLVED THAT the following Voting Members of the US Health Freedom Congress do affirm and support the position of DAMS Inc., that the massive covert spraying programs such as described above are violation of fundamental human rights and freedoms including our right to privacy, our right to choose medical interventions free of coercion, and our right to be free from medical experimentation that we have not consented to. The secretive and covert nature of massive aerosol spraying programs (aka "geoengineering" programs) such as are described above indicates that serious violations of the democratic process and of basic freedoms are taking place; such violations stand in conflict with all principles of health freedom. Such programs should be stopped**

immediately and open discussions should be undertaken looking into the health and environmental harm that has already been inflicted.
