

NATIONAL HEALTH FREEDOM ACTION

Dear Health Freedom Activist;

Because **you are a Californian and you play an active role in fighting for health freedom**, you understand the importance of **fighting any and all assaults on personal freedom**. We are inviting you to participate in CaliSummit and join others in our work to regain our human rights. [Click Here to Learn More and Register.](#)

The world of Health Freedom grew exponentially in California in 2015 with the addition thousands and thousands of parents who lost the right to go to school when SB277 passed in June, taking their right to decline vaccines based on their personal or religious beliefs. They are new to the activist fight and for this reason are coming together March 10-12 to collaborate. It is now time to join forces with all the other organizations who fight the same government for other health freedom issues. For this reason we are reaching out to YOU!

Please be a part of uniting various organizations, networking health and legal professionals, supporting grassroots outreach at regional and local levels, and promoting any campaign you see as valuable. You have the opportunity to collaborate with national representatives and grassroots activists on shaping the future of health freedom. The solution to the division and lack of cohesive leadership is **you** and the means to succeed is **CaliSummit**.

In January 2016, a diverse group of activists met in Sacramento to initiate **CaliSummit**. State and national organizations, who want to see California succeed, sent representatives to help us establish the framework and relationships needed to move forward as a powerful movement. Some activists from Southern California participated and insisted that **CaliSummit** be brought to their area. And now we are extending an invitation for you to participate through [this Eventbrite link](#).

If you have any questions or requests, please email us at calisummit@yahoo.com and we will respond ASAP.

Warmest regards,
CaliSummit Logistics Team
