

NATIONAL HEALTH FREEDOM ACTION

S.F.380 Passed the Senate Health Committee Wednesday, March 18th and is Headed to the Floor!

Oppose S.F. 380 NOW and Protect Un-Obstructed Use of MN's Vaccine Exemption for Conscientiously Held Beliefs

Send a Thank You to Senators Nienow, Benson, Hoffman, and Hayden who voted to stop the bill in Committee

► **[Click Here](#) to Take Action and immediately write to all Minnesota Senators to OPPOSE SF380 and protect Minnesotan's right to use the MN vaccine conscientiously held belief exemption without obstructions! If you have already written, WRITE AGAIN!**

When you put in your zip code and take action your email will automatically be sent to all Minnesota Senators. A special letter will also be sent automatically to Thank Senator Benson, Senator Nienow, Senator Hoffman, and Senator Hayden for their wonderful support of vaccine exemption rights in the committee hearing. You can edit the automatic letters and send your own words too. When you take action Senator names and contact info will appear on your screen to confirm that you have taken action. Please use this info and call the Senators directly if you can and leave a message to vote NO on S.F.380.

S.F. 380/H.F. 393 are bills attempting to impose barriers on parents before they exercise their fundamental right to decline vaccines under MN's legal exemptions!

The Committee Hearing was an intense exchange, with Dr. Toni Bark M.D. testifying on behalf of the vaccine exemption rights movement as well as other wonderful informative testifiers. Dr. Bark gave a profoundly detailed education on the realistic landscape of problems associated with implementation of vaccine programs and the risks to families in terms of how informed they are in that setting. We are unhappy to report that we are unable to give you a link to the legislative on-line audio-file of the hearing because the office of the Sergeant at Arms in charge of audio files has let us know that the audio file has been lost and is not available for loading onto the legislative audio website. However, footage from the Press Conference held before the hearing will be posted on YouTube soon.

Minnesota S.F. 380/H.F. 393 seeks to make opting out of childhood vaccinations more difficult for MN parents. Under current law, parents can opt children out of vaccination for medical reasons if approved by doctors, or because they hold conscientiously held beliefs if they present notarized forms to their schools. But, SF 380/HF 393 would require those parents to first talk to a Physician and obtain a statement from the Physician verifying that the Physician has reviewed with the parent information about the risks and benefits of the vaccines that is consistent with information published by the Centers for Disease Control and Prevention. Please help stop this attempt to set up hurdles for parents before they exercise their fundamental rights to direct the health choices and wellness path of their children.
