

NATIONAL HEALTH FREEDOM ACTION

Please Attend 3/31 Meeting Re: Strategize to Stop SF380

All Vaccine Safety Advocates Welcome!!!

Please join us Tuesday, March 31, at 7pm to strategize next steps to stop SF380. See the planned Agenda, below, and –even if you can’t attend the 3/31 meeting – plan to meet with your MN Senator during the legislative spring break, March 28 and April 6. **Help us reach as many Senators as possible before SF 380 is heard on the Senate floor!**

3/31 7pm Meeting Location:

Lauderdale City Hall

1891 Walnut Street

Lauderdale MN 55113

There is on-street parking as well as a lot at the back of the building.

3/31 Planned Agenda:

1. Potential Lobby Day on Tuesday, April 14 or Wednesday, April 15

-Determine which date works best & which legislators to target

-Identify a committee to plan it; Anne Tenner willing to be head

2. Meetings with legislators in home districts during Easter Break (3/28 - 4/7)

-Determine how to reach them at home & which legislators to target

3. Discuss new bill, HF 1978, introduced by Representative Pugh on March 17, 2015

Spring Break Meetings:

Your state senator and representative are now home in their districts for a week for spring break, between March 28 and April 6. Please consider stopping by or calling them to ask them to oppose SF 380, which would require parents who wish to delay vaccination, or skip one or more of them, to visit with a doctor first, and to write down why they wish to have an exemption, which will go in their medical file.

To find your state senator’s name, go to <http://www.gis.leg.mn/OpenLayers/districts/> and fill in your address. This will give you your senator’s name and his/her contact information at the State Capitol.

In order to find out his/her home address and home phone number, go to:

<http://www.cfboard.state.mn.us/campfin/legframe.html>. Click on “By Last Name” and then click on the committee name. Your senator’s contact info will show.

This is a great time to get to know your state senator and educate her or him about vaccine safety and the importance of parent choice and informed consent.

Please pass this on to your group of contacts!
