

## NATIONAL HEALTH FREEDOM ACTION

### Vermont and California Need You NOW!

### Preserve Their Human Rights to Decline Vaccines!

*To be a truly great and honorable country we must protect our fundamental personal sovereignty, to make our own decisions about our bodies, including accepting or declining injections, vaccines, or other treatments recommended by government!*

*If the bills in CA and VT pass, they will fundamentally alter the relationship between government and citizens! Protection of our bodily integrity and personal and domestic sovereignty has been an American guarantee and protected by our constitution, the "law of the*

*land", for decades. We will lose the essence of American liberty if government can coerce citizens into forced medical treatments!*

**Vermont:** Vermont's Assembly and Senate passed HB98 on May 14th, taking away parental rights to decline or modify vaccines for their children with the use of the current exemption available based on personal convictions. The bill is on its way to the Governor's office. **[Take Action Here.](#)**

**California:** California's Senate passed SB277 on May 14th, a bill that would take away parental rights to decline vaccines for their children based on personal and religious beliefs. The bill is on its way to the Assembly. **[Take Action Here.](#)**

**Mass vaccination policies are made at the state level** - where your action to protect your rights are urgently needed now! Defend the right to make informed voluntary decisions about vaccinations. Join Washington, Oregon, Maryland, Texas, and many other states in successfully convincing legislators to stop bills that would restrict the legal right to make voluntary choices about vaccinations. Tell your legislators that the right and responsibility for making medical intervention decisions for preventative care for your family belongs to you!

**CONTACT YOUR ELECTED LEGISLATORS AND GOVERNOR DIRECTLY!**
