

NATIONAL HEALTH FREEDOM ACTION

Please Come to the Hearing tomorrow, November 16th and Protect Access to Minnesota's Fresh Raw Milk!

We need you to come fill the Appellate Court Room! Can you imagine a world where Minnesotans would not be able to access FRESH RAW MILK? So much for Cows, Colleges, and Contentment!! And where Minnesota farmers that privately contract with you to share the products of their farm would be harassed and shut down by state agencies that regulate large commercial enterprises?

[Lake View Natural Dairy in Grand Marais](#) is trying to protect their livelihood and the **Department of Ag is trying to strong-arm them.** The dairy provides fresh raw milk to people that come to their farm in compliance with Minnesota law that states that unpasteurized/raw milk may be obtained when it is, “occasionally secured or purchased for personal use by any consumer at the place or farm where the milk is produced“. But the Minnesota Department of Ag wants entry onto their farm and thinks they can regulate them to the same requirements and standards as large scale commercial dairy operations.

Come join us on November 16 at 9:30 a.m., at the Minnesota Judicial Center in St. Paul for a 30-minute hearing on Lake View's case by the Minnesota Court of Appeals. Please RSVP to campaigns@organicconsumers.org if you can attend.
