

NATIONAL HEALTH FREEDOM ACTION

Please support President-Elect Trump in his considering of RFK Jr. to lead a Commission for Vaccine Safety. The following is an alert which NHFA supports from our health freedom colleagues at **Autism Action Network:**

RFK Jr. asked to head vaccine safety commission by Trump

[Take Action!](#)

Take Action: Please support the vaccine safety commission

If you haven't seen the news, yesterday Robert F. Kennedy, Jr. announced that President-Elect Trump, "asked me to chair a commission on vaccine safety and scientific integrity" in a televised statement as he left a meeting in Trump Tower. The announcement has not yet been confirmed by the Trump team.

As could have been expected, the corporate media is going bonkers over this announcement and has directed a barrage of criticism at Trump and Kennedy. Please click on the Take Action link above to send President-Elect Trump a message supporting creation of the commission.

Please share this message with friends and family, and post to social networks.
