

## NATIONAL HEALTH FREEDOM ACTION

### **Request Kaiser Permanente Release Publicly Funded Research Data on Infants and Mercury**

Join our colleagues at [MercuryFreeBaby.org](http://MercuryFreeBaby.org) and [sign the petition](#) requesting that Kaiser Permanente release the data to the researchers at MercuryFreeBaby.org. Kaiser Permanente used public funding to collect data and conduct a study on infants and mercury exposure. The study which purports that mercury exposure is safe for infants has serious methodological flaws and has the potential to influence public policy and endanger our children. Kaiser Permanente has financial conflicts of interest due to their administration of flu vaccines containing mercury including to pregnant women. Our children deserve another set of eyes on this very important data. [Please sign the Petition Here.](#)
