PLEASE OPPOSE sf 1520

**This Bill SERIOUSLY UNDERMINES Minnesota's
Health Freedom
Statute 146A**

In SF 1520 several terms are absent or ambiguous, including naturopathic medicine, naturopathy and naturopath. In addition, the scope of practice language (147E.05) includes and mixes together naturopathic modalities practiced under Minn. Stat. 146A and allopathic modalities and calls them naturopathic medicine.

~Traditional practitioners practicing under Minn. Stat. 146A today could lose their right to practice if the registration legislation becomes law

~ Consumers will lose access to the health care practitioners of their choice practicing naturopathy under Minn. Stat. 146A
