

NATIONAL HEALTH FREEDOM ACTION

Informed Consent Reception and Briefing Wednesday, February 7 - Invite Your Legislators!

On behalf of our colleagues at Health Choice, Vaccine Safety Council of MN, Informed Consent Action Network, and Physicians for Informed Consent, NHFA is sending the following request for you to invite your legislators to an Informed Consent Reception and Briefing taking place next Wednesday evening. Please read below about how you can help support this event:

The MN legislative session is just around the corner and we need your help in protecting your healthcare choices!!! The above organizations are hosting a legislator only briefing on February 7th on Informed Consent! This is an opportunity for legislators to come hear the issues and legislation for 2018 and have an opportunity to ask any questions they may have.

Del Bigtree (Vaxxed & the Informed Consent Action Network), Dr. Sarah Bridges (mom to an NVICP compensated disabled young man), Vaccine Safety Council of Minnesota, Health Choice & Dr. Bob Zajac (Physicians for Informed Consent) will brief our legislators on the state of health freedom here in Minnesota. Following their message there will be a panel including them and other MN citizens affected by various mandate attempts.

We need YOUR help to get your legislators there!!! Would you please personally invite them via Facebook, email, phone, or in person? You may use the attached image to send or print. You can tell them that you appreciate their public service, and that as your representative, you are asking them to attend on your behalf because it's an issue important to your family. Share as much or as little about why as you wish. Tell them you would be very grateful if they could make time for this and you will be available to discuss anything more after the briefing. Make it your own!

Not sure who your legislators are? Click [Who Represents Me?](#) to find out!

This event will be a great opportunity to inform our legislators on why it is so important to protect our human right of informed consent - the right to be fully informed of any medical procedure and the right to refuse any procedure if you decide the risks outweigh the benefits. This right is crucial in regards to vaccinations.

Thank you so much for taking the time and the effort to help make this event a success! Once you hear back from your legislators please let the hosting organizations know so they can plan accordingly. You can send an email to info@vaccinesafetycouncilminnesota.org.

INFORMED
CONSENT
is a
HUMAN
RIGHT

Any preventive, diagnostic and therapeutic medical intervention is only to be carried out with the prior, free and informed consent of the person concerned, based on adequate information. The consent should, where appropriate, be express and may be withdrawn by the person concerned at any time and for any reason without disadvantage or prejudice.

- Article 6 of the
Universal Declaration
on Bioethics and
Human Rights -

NHFA is a non-profit social change and lobbying organization and your contributions will NOT be tax deductible.
