A MESSAGE FROM THE PRESIDENT

Jerri Johnson, President

Dear Friends of Health Freedom,

What is more important than your health and the health of your family? This ranks right up there with value for your highest good. And how do you like to maintain and preserve your health, or restore it when it is lost? With energy healing, herbal and homeopathic remedies, conventional medicine, good nutrition, exercise – do you use some or all of these and many others? And who do you like to consult for guidance? Health coaches, naturopaths, homeopaths, herbalists, medical doctors, chiropractors, dentists, spiritual guides – some or all of these, or many others? Isn't it great that you mostly get to choose those things? Unfortunately, laws in our country can sometimes interfere with your choices. Laws can prevent you from accessing the practitioners you most want – or the supplements you need. And sometimes laws and public policies aim to require you to comply with a medical procedure that you don't want.

At National Health Freedom Action, our mission is to create a space where you absolutely have those choices. And to change the laws in your state to make it possible, when necessary.

Thank you for your support for NHFA and for making our work possible. If change is needed in your state, get in touch with us. We're here to help. The people are rising to the occasion in a new way we have not seen before. Good things are happening. Let's work together to keep the momentum!

Thank you.

In health freedom,

Jerri Johnson

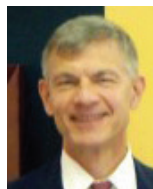

President, National Health Freedom Action

Nate Gorman
Leg. Policy Advisor

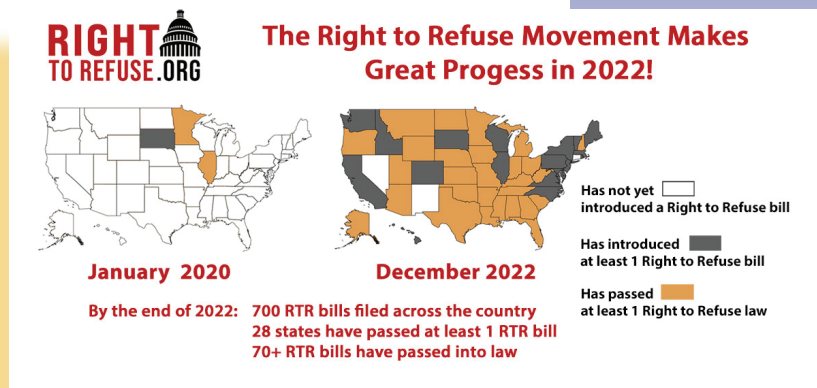

NHFA envisions an America where all people can make their own health decisions in an environment free from fear and coercive tactics, and where all people can have access to the practitioners and products they need on their healing journey.

During 2022, we saw the continuation of attacks on our rights to make health care decisions. A great many cases were heard in courts across the nation regarding health emergency powers, vaccine and mask mandates, and religious exemptions. In the majority of cases, judges found these health dictates unlawful or unconstitutional. Yet, in many places we still find many healthcare workers, teachers, students, police officers, our military, private employees, and many others are still facing coercive tactics to acquiesce to medical mandates. Censorship and persecution of health practitioners continues for those not willing to follow the dominant narrative of a “safe and effective” vaccine as the only true path to health.

We pledge to continue to work for the right of all people to access the health care of their choice...

NHFA protects the fundamental right of all people to make their own health decisions!

NHFA’s new **RighttoRefuse.org Project** is providing hope for people across the country. NHFA, along with a small group of health freedom leaders from CA, VT and MA, envisioned a new project that would support those people working to protect the constitutional right of each person to decline countermeasures such as testing, tracking and vaccination during a health emergency. The RighttoRefuse.org website is a place where people can find and support right-to-refuse legislation and organizations in their state with the use of an interactive map. In addition, NHFA attorneys are working directly with many new state groups interested in passing right to refuse legislation. **Currently 29 states have passed more than 80 bills into law that, in some way, shape or form protect a person’s right to bodily autonomy.** This is a huge step in the right direction but this is just the beginning! There is much more work to be done if we hope to shape a future where all people can freely make their own health decisions without coercive tactics.

... and what citizens can do to protect these rights.

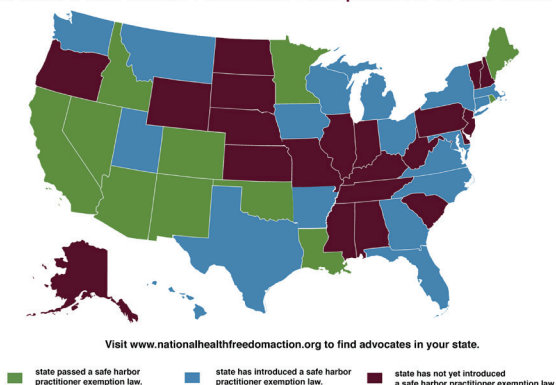

NHFA protects the right of practitioners to practice the healing arts

Safe harbor practitioner exemption legislation protects access to healers. These laws ensure that complementary and alternative health care practitioners such as traditional naturopaths, homeopaths, energy medicine practitioners, and herbalists cannot be shut down or criminally charged for practicing their vocations without state licenses, as long as they avoid a list of prohibited acts and as long as they give out proper disclosures to their clients.

NHFA works with groups all over the country to introduce and advance safe harbor bills.

Connecticut, Massachusetts and Oregon are currently working towards a safe harbor practitioner exemption bill in their state. Unfortunately, Wisconsin's Complementary and Alternative Practices bill, AB 86, was vetoed by Wisconsin Governor Evers on May 17, 2022, after the bill had successfully passed the Assembly and the Senate. Today, eleven states have safe harbor practitioner exemption laws in place.

Is there a Safe Harbor Practitioner Exemption Law in Your State?

NHFA publishes action alerts

Take Action NOW!

One of the most important things that individuals can do to shape the laws of our country and protect health freedom is to communicate with and establish relationships with lawmakers and advocate that they pass laws to protect freedom and oppose laws that infringe on health freedom.

NHFA's advocacy software gives us the ability to publish action alerts to keep everyone informed and give them a way to write directly to their lawmakers.

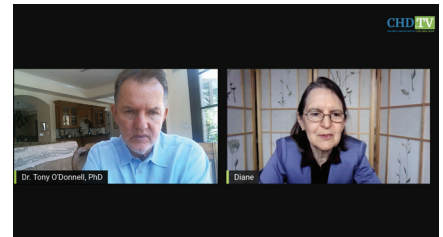

In 2022 NHFA put out action alerts in Massachusetts and Connecticut supporting safe harbor practitioner legislation while also opposing unnecessary practitioner licensing bills in Massachusetts. California, Illinois, Massachusetts, Pennsylvania, Kentucky, Vermont and many other state alerts went out regarding bodily autonomy and the right to decline unwanted mandates. In Massachusetts NHFA opposed a bill to remove the religious exemption to school vaccination while supporting a bill that would remove

toxic PFAS from food packaging. In California alerts went out opposing bills that would infringe on parental rights to make health decisions for their children and on doctors' free speech. In addition, alerts were sent regarding federal issues including

opposition to WHO CA+ agreement and the Amendments to International Health Regulations and support of a bill that would protect dietary supplements companies. It's been a busy year!

NHFA teaches people across the nation about their health freedom rights and how to protect them.

- Attorney Diane Miller gave radio interviews with Robert Scott Bell on the Robert Scott Bell show and on CHD.TV's The Solution with Tony O'Donnell.

- Northwestern Academy of Homeopathy: Homeopathic Practice in Your State, Diane Miller
- Health and Freedom Summit, Nashville, TN - Diane Miller on shaping laws to protect bodily sovereignty.
- Children's Health Defense conference in Knoxville, TN. Attorney Steven O'Conner and Julie Booras represented NHFA
- Online National Presentation: Complementary and Alternative Health Care Practice in Your State.

- Trinity Health Freedom Expo, Diane Miller, “Shaping Laws to Protect Health and Healing Rights.” Diane was part of a health freedom panel with attorney Jonathon Emord and former US Representative Dan Burton.

- Natural Health Expo, Marlboro, MA - Julie Booras and Dr. Karen Moriarty spoke to hundreds of people about health freedom efforts in Massachusetts and across the nation.

Each opportunity to travel and connect with other health freedom advocates sparks new relationships that lead to more and more allies joining us in this epic battle, across the nation, to protect our most fundamental right, the right to make decisions about our own bodies.

13th US Health Freedom Congress

The 13th US Health Freedom Congress was hosted by our sister non-profit organization, National Health Freedom Coalition, September 2022 in Minnesota. NHFA gave a presentation on the “Right to Refuse” Legislative Project and drafted 2 pieces of model legislation for submission and endorsement by the voting members of the US Health Freedom Congress.

This model language is available for all states to use as a starting point in their state.

- Right to Refuse Model Legislation
- Model Legislation for a Genetic Privacy and Integrity Act

We will not stop working for the freedom for each person to access what one needs in their health journeys and to make one’s own health decisions for themselves and their families.

Your ongoing support makes all this possible and we are so very grateful.

Dr. Karen Moriarty, new NHFA Board Member

We are happy to have Dr. Karen Moriarty as a new board member for NHFA! Dr. Karen owns Northboro Chiropractic Center in Northborough, Massachusetts. Dr. Karen is dedicated to improving the quality and expression of her patient's lives and health by optimizing the function of their nervous system

over their lifetime and by continuously educating them as they make their journey towards the true health and healing that can only come from within themselves. Her practice members range in age from newborn to the golden years. As part of her mission to empower the health of each individual, Dr. Karen provides practice members with the most recently validated information on important health issues such as nutrition, supplementation, immunity, stress management, exercise, learning challenges, heart health, and other lifestyle related illnesses.

Nathan Gorman, new NHFA team member as a grassroots advocate

We are excited to introduce our newest team member, Nathan Gorman. Nate is currently working for NHFC and NHFA as a Legislative and Policy Advisor. Nate comes to NHFC/NHFA as an experienced professional lobbyist working for nearly two decades in Colorado. His experience working on behalf of complementary and alternative health

care providers provides helpful insights for health freedom in the many states where NHFA is working. His work contributed to the successful passage of Colorado's Safe Harbor exemption bill in 2013. Nate developed relationships as a trusted resource to legislators, regulators, governors and leaders across many industries and interests in the state on behalf of clients he represented.
